INFOSYSTEMS PVT. LTD.

HEIGHT, WEIGHT & BMI MACHINE

Overview :

This model comprising of high quality steel alloy load cell, sturdy and attractive looking mechanical structure, ultrasonic sensors for measuring height accurately combining with the latest micro controller technology.

With its light self weight, ease of operation and high efficiency, it becomes an ideal choice for hospitals, schools, physical examination centres, health clubs, gymnasiums etc.

Main Features:

- ◆ Automatically measures weight, height and body mass index accurately and rapidly.
- ◆ Displays weight, height and Body Mass Index
- ◆ Bright 20x4 LCD Display
- ◆ Sleek Design
- ◆ Ultrasonic based Height Measurement
- ◆ Load cell based Weight Measurement
- ◆ Derived BMI Measurement
- ◆ Data Output Serial(RS232)
- ◆ Data Output TCP/IP(Optional)
- ◆ u24X7 Chemist & Druggist / Hospitals
- ◆ uMalls / Shopping Complex
- ◆ uMultiplex /Cinema Halls
- ◆ uGame Zones / Theme Parks
- ◆ uHealth Clubs
- ◆ uDiabetic Centres
- ◆ uBus / Railway Stations /Airports
- ◆ uExhibition
- ◆ uPrivate Clinics
- ◆ uDepartmental Stores

Specifications :

- ◆ Power Supply : 230 Volts /50Hz AC
- ◆ Operating Temperature : 0° to 60° C
- ◆ Self Weight : 20 Kg (Approximately)
- ◆ Self Height : 250 cm
- ◆ Micro controller Based Design
- ◆ Display : 20x4 LCD Display
- ◆ Weighing Capacity : 300 Kg
- ◆ Weighing Accuracy : 100 gms
- ◆ Height Range : 250 cm
- ◆ Height Accuracy : +/- 1 cm
- ◆ Platform Size : 400 x 400 mm
